Professional Summary

Full Stack Developer with 3+ years of experience developing enterprise web applications using React, Angular, Python, and FastAPI. Skilled in building scalable REST APIs, responsive user interfaces, and full-stack solutions. Experienced in microservices, CI/CD pipelines, API integrations, system optimization, and Agile software development.

Technical Skills

Programming Languages: Java, Python, Javascript, SQL, C#, C, C++

Frontend: Angular, React, HTML, CSS, Bootstrap

Backend: FastAPI, ASP.NET Core, REST APIs, Kafka, Microservices Architecture, PostgreSQL, SQL Server

Tools & Platforms: Git, GitLab, Jenkins, Postman, Visual Studio, Visual Studio Code, JIRA

Core CS: Data Structures & Algorithms, OOP, DBMS, Computer Networks

Work Experience

Fresh Gravity Software Services India Pvt Ltd Pune, India Jun 2026 - Present

Consultant (Full Stack Developer)

- Contributed to the development of **Pulse**, an internal enterprise platform streamlining timesheet, invoice, project, and resource management, by building scalable **REST APIs**, implementing **JWT authentication** and **RBAC**, and delivering features across **4 release phases** using FastAPI, SQLAlchemy, and PostgreSQL.
- Enhanced application performance and quality through database query optimization, pagination, indexing, **automated testing (1,500+ test suite)**, API integrations, UAT support, defect triage, and production issue resolution.

FinIQ Consulting India Pvt Ltd Pune, India Jul 2023 - Jun 2026

Software Developer

- Developed and maintained a comprehensive **web platform** for banks across Singapore and Malaysia that enabled trading multiple structured products on a single unified interface, enhancing efficiency and user experience for traders. Implemented **Jenkins CI/CD** pipelines for automated SIT builds and deployments, improving release consistency.
- Designed and integrated **Apache Kafka**-based event-driven communication for tranche creation and order placement across microservices, improving system **throughput by 35%**.
- Built responsive **Angular** interfaces and integrated with .NET Core REST APIs. Migrated a legacy **WCF** service to scalable **.NET 6 REST APIs**, while applying clean architecture principles to strengthen security and scalability.

FinIQ Consulting India Pvt Ltd Pune, India May 2022 - Jul 2022

Engineering Intern

- Developed **responsive Angular components** and migrated Power BI dashboards to Angular using ApexCharts and D3.js for **interactive data visualization**.

Sayu Softtech Pvt. Ltd. Ahmednagar, India Mar 2023 - Jun 2023

Web Development Intern

- Built responsive web applications using HTML, CSS, JavaScript, and PHP, implementing **backend email notifications** for user feedback handling and delivering 10+ course modules with **deployment** and **hosting** support.

Education

College Of Engineering Pune Aug 2019 – May 2023
Bachelor of Technology in Computer Engineering **CGPA: 8.67/10**

Project Work

- Linux Tree command:** Implemented recursive directory traversal with sorting and formatted output, featuring various options for output manipulation, from file options, sorting options, to graphics options, and support for output in XML, JSON and HTML formats. **C, DSA.**
- HTTP Server:** Built a basic HTTP server handling GET/POST/PUT/DELETE requests with request parsing and response generation similar to backend web servers. **Python, Computer Networks**

Achievements

- Secured State Rank 2** in MHT-CET 2019 with a percentile score of 99.9992758
